<b>MINING LEASE FOR CEMENT GRADE LIME STONE</b>		
<b>OF</b>		
<b>NAGAUR 3B 1 (a)</b>		
<b>Document No.: MSTC/NRO/Directorate of Mines and Geology Rajasthan, Udaipur/1/Udaipur/ 15-16/12303</b>		
<b>Sl. No.</b>	<b>Bidders Queries</b>	<b>Reply</b>
<b>1</b>	Anexure-1: How the reserve has been estimated.	Resource has been estimated using polygonal method of resource estimation.
<b>2</b>	Part –A,(1)General information about mineral block. Page N0-104 Block statutory area not accounted for due to Statutory regulation.	As per MoEF guidelines, resettlement & rehabilitation (R&R) is to be executed.
<b>3</b>	Part –A, (4)General information about mineral block. Page N0-104. Percentage of Mgo excessively high i.e. even above the IBM threshold classification specified for Cement grade.	MgO content in the block is at an average of less than 4%, which is the prescribed limit for cement manufacturers as per the IBM yearbook 2014
<b>4</b>	Locating block area is difficult	Area can be visited with Senior Geologist, Nagaur after taking prior appointment.
<b>5</b>	Part –A, (3)General information about mineral block. Page N0-104. How area from G3 level to G2 level will be processed?	Gol has relaxed level of prospecting from G3 to G2 after considering nature of rocks, homogeneity, in sedimentary terrain.
<b>6</b>	Page No-25 There is no time specified between submission of mining plan &second instalment of upfront payment (by successful bidder), to the next steps i.e. for submission of various approvals. This may create ambiguity in handling subsequently with various Central & State Govt agencies in obtaining approvals.	Preferred bidder shall be supported by the State Government through the PAMCAF in obtaining necessary clearances and approvals. No change in tender document.
