

**REPLY TO PRE BID QUERIES  
FOR  
MINING LEASE OF  
Ramgarh Limestone Block District Jaisalmer  
Tender No.: MSTC/JPR/Directorate of Mines and Geology Rajasthan, Udaipur/24/Udaipur/22-23/20213**

| Sl. No. | Bidders Queries   | Reply   |
|---------|---|---|
| 1       | <p>Mine Specific Tender Document Ramgarh Limestone Block</p> <p>Clause B-1-d Page No- 40 Instructions for submission of the bid letter. It is mentioned in tender document that Documents to evidence compliance with the eligibility conditions must be enclosed with the bid letter, duly certified by one of the directors of the Bidder, in case the Bidder is a company.</p> <p>This condition may be modified as Documents to evidence compliance with the eligibility conditions may be certified by authorized signatory of the Bidder.</p> <p>It may be difficult to get certified eligibility documents by director of the Company so this condition may be replaced by authorized signatory.</p> | <p>Documents to evidence compliance with the eligibility conditions may be certified by authorised signatory.</p> |
| 2       | <p>Mine Specific Tender Document Ramgarh Limestone Block</p> <p>4. Eligibility, Page - 13</p> <p>Point (g).</p> <p>The Successful bidder will carry out composite mining of SMS grade limestone and SMS grade limestone shall be sold to Steel Plants only.</p> <p>The thickness of SMS Grade Limestone is varies from 0.45m to 3.00 m in different boreholes and the beds of SMS Grade Limestone is not continuous so it will not be possible in mechanised mining to mine out SMS Grade Limestone Separately.</p> <p>This condition may be omitted.</p> <p>It will not be possible to mine out SMS Grade Separately.</p>  | <p>Tender document condition shall prevail.</p>   |

|----------|--|--|
| <p>3</p> | <p>Mine Specific Tender Document Ramgarh Limestone Block</p> <p>Geological Report</p> <p>Chemical Analysis<br/>The Chemical analysis for waste material viz. Soil, clay, shale is not provided.</p> <p>The Chemical Analysis of Limestone encountered in bottom of the borehole as per logging is also not provided.</p> <p>The chemical analysis for waste material and limestone may be provided.</p> <p>The waste material is coming as inter-burden also so quality of inter - burden is important for grade dilution.</p> | <p>1. As per objective of the project chemical analysis for only designated mineralization i.e. limestone encountered in the boreholes has been carried out and there was no requirement for analysis of waste material viz. Soil, clay, shale etc.</p> <p>2. The Chemical Analysis of Limestone encountered in bottom of the borehole is also provided in the report.</p> |
| <p>4</p> | <p>Mine Specific Tender Document Ramgarh Limestone Block</p> <p>Chlorine Analysis</p> <p>The Chemical analysis of Chlorine is not provided.<br/>The Chemical analysis of Chlorine may be provided.</p> <p>Chlorine content usually found high in marine deposits and if it is so in this deposit, Chlorine content may play crucial role in cement manufacturing process.</p>  | <p>Chemical analysis of Chlorine was not part of envisaged Nature &amp; Quantum of work of the project. If required by successful bidder some samples can be provided for Chemical analysis of Chlorine.</p>   |
| <p>5</p> | <p>Mine Specific Tender Document Ramgarh Limestone Block</p> <p>Land Schedule</p> <p>As per Land Schedule 37.4938 Hect. Land classified as Set Apart Govt. Land (Gair. Mumkin Abadi, Ramgarh Mandi &amp; RMML). Mining and its allied activities are allowed in such type of land or we need to take permission for same?<br/>Clarification for Set Apart Govt. land may be provided.<br/>The clarification is required to understand availability of reserves and mineability of the Block.</p>                               | <p>The permission in set apart Govt. land is required.</p>   |

Handwritten signatures and initials at the bottom of the page, including a large signature that appears to be 'J' and several other scribbles.

|          |   |   |
|----------|---|---|
| <p>6</p> | <p>Plate-II- Detailed Geological Map</p> <p>In Geological Map four electric lines are shown. Whether these electric lines are low tension electric lines or High tension lines?</p> <p>Clarification may be given for types of electric lines available in block area.</p> <p>Clarification for electric lines is required to understand quantity of mineable reserves.</p> | <p>The electric lines are low tension electric lines.</p>       |
| <p>7</p> | <p>Topographic Plan/Surface Plan</p> <p>Topographic Plan/Surface Plan is not given in geological report.</p> <p>Topographic Plan/Surface plan along with contours may be provided.</p> <p>Topographic plan is required to understand topography of Block area.</p>  | <p>It will be provided to successful bidder if he requires.</p> |
