Step 2 - First Time User Options (Vendor will do)

The screenshot shows a web application interface for the Department of Mines & Geology. At the top, there is a blue header with the department's logo and name. Below the header, a white dialog box titled "First Time User ?" is displayed. The dialog box contains the text "Please select an option for registering on Department of Mines & Geology" and four radio button options: "New Vendor GPS Device Testing Form" (selected), "Stage-3 Tested GPS Vendor Onboarding", "Weighbridge Fitment Checklist Application", and "Vendor Vehicle Entry Form". Below the options, there is a note: "If you have multiple profiles, you can always use your existing User ID to switch profiles." At the bottom of the dialog box, there are two buttons: "Cancel" and "Proceed". Below the dialog box, there is a footer with the email address "Email:- director.uifa.mg@rajasthan.gov.in".

Step 4 - Success Message

The image shows a web application interface for the Department of Mines & Geology, Government of Rajasthan. A success message overlay is displayed in the center, indicating that the VTS Onboarding process has been completed successfully. The message includes a green checkmark icon, the word "Success!", and the text "VTS Onboarding submitted successfully!". It also displays the request number "REQVEN-2-202" and advises the user to save it for future reference. An "OK" button is provided to dismiss the message. The background shows a form with various input fields and a "Submit Checklist" button.

Step 7 - Vendor Activation After Registration(VTS admin will do)

The screenshot displays the VTS Admin interface for the Department of Mines & Geology, Government of Rajasthan. The user is logged in as VTS Admin. The main content area shows the 'View Vendor Enrollment' page with a search bar and filters for Status, From Date, and To Date. A table lists two vendors: 'Trid Minerals and Stones' (Pending) and 'RYM Greenergy Solutions Pvt Ltd' (Active). The interface includes a sidebar with navigation options like Dashboard, Master, Vendor Enrollment, and Geo-Fencing.

Device Health Declaration *

Ignition should be on and device should be closed with Emergency switch connected. Frequency: Ignition on: 10 Seconds, Ignition off: 60 Seconds, Health packet: 1 Hour.

Please accept the health declaration first

Step 10 - Device Health Check (Vendor will do)

The screenshot displays a web application interface for a 'Health Check Result'. The top header identifies the user as 'Trid Minerals and Stones GPS Vendor' and provides a 'Back To Role' link. The left sidebar contains navigation options: 'Dashboard', 'Device Tagging' (with a dropdown arrow), and 'Register GPS Device'. The main content area, titled 'Health Check Result', shows a grid of 12 individual check results. Each result card includes the check name, a status indicator (PASS, FAIL, UNKNOWN), and the specific value returned. At the bottom right of the grid, there are two buttons: 'Recheck' and 'Close'.

Check Name	Status	Value
Approval Status Check	UNKNOWN	FAIL
IMEI Check	UNKNOWN	FAIL
Registration Number Check	PASS	FAIL
Manufacturer ID Check	PASS	FAIL
Location Check	UNKNOWN	FAIL
Packet Structure Validity	UNKNOWN	FAIL
Tamper Status Check	PASS	NO
Emergency Status Check	PASS	NO
Input Voltage Check	PASS	FAIL
Internal Battery Voltage Check	PASS	FAIL
Data Frequency Check	PASS	FAIL
Timestamp Check	UNKNOWN	FAIL

Step 11 - Vehicle Tracking (Department will check)

Step 13 - Alerts & Notifications (Department will check)

The screenshot displays the 'Alerts' section of a software interface for Rajasthan Mining. The interface includes a dark blue sidebar on the left with navigation options: Map View, List View, Vehicle Replay, Alerts (highlighted), Route Tracking, Reports, and Sign Out. The main content area shows a list of four alerts, each with a distinct background color and severity level:

- Emergency Alert (Panic Button Triggered)** - Critical (Red background). Description: Vehicle RJ27GE2625 has triggered an emergency alert. Immediate attention required. Vehicle: RJ27GE2625 Time: 01/01/2026, 08:33 pm.
- Route Deviation Alert** - High (Orange background). Description: Vehicle RJ27GE2625 has deviated from the approved transit route. Possible non-compliance detected. Vehicle: RJ27GE2625 Time: 01/01/2026, 09:31 PM.
- Over-Speed Alert** - Low (Light Blue background). Description: Vehicle RJ27EA6964 exceeded the permitted speed limit. Immediate corrective action advised. Vehicle: RJ27EA6964 Time: 02/01/2026, 10:24 AM.
- Harsh Acceleration Alert** - Medium (Yellow background). Description: Vehicle RJ27EA6964 experienced harsh acceleration beyond the defined threshold. Unsafe driving behavior detected. Vehicle: RJ27EA6964 Time: 01/01/2026, 11:38 PM.

At the bottom left of the sidebar, the user is identified as 'System Administrator' with the email 'admin@rajmines.com'.
