1	<p>Tender Document For E-Auction of Mining Lease For Minyun Ki Dhani (Main) Block.</p> <p>Geological Report of Minyun Ki Dhani (Main) Block.:                      Chapter-9: Resource estimation: Resource of SMS Grade, Chemical Grade &amp; Cement Grade Limestone calculated by area influence method.</p> <p>The Resources of SMS, Chemical &amp; Cement Grade Limestone are calculated by area influence method without considering core recovery which is a major modifying factor with respect to estimation of resources. The Resources may be provided by considering core recovery factor as core recovery 100% not achieved in Boreholes.</p> <p>The Revised Resources of Limestone may be provided by considering Recovery factor.</p> <p>All Statutory Payments are based on Quantity of Resources.</p>	<p>Limestone is chalky in nature, it gets washed out during drilling. The 100% core recovery is not possible. Therefore, the resources have been calculated accordingly.</p>
2	<p>Tender Document For E-Auction of Mining Lease For Minyun Ki Dhani (Main) Block.</p> <p>Topographic/Surface Plan</p> <p>Topographic/Surface Plan is not provided along with Geological Report. Topographic/Surface Plan may be provided along with Geological Report.</p> <p>Topographic/Surface Plan may be provided along with Geological Report.</p> <p>Topographic/Surface Plan is the pre-requisite for preparation &amp; Approval of Mining Plan.</p>	<p>It will be provided to preferred bidder if required.</p>
